

SADC-RTGS Payments Training – Cross Border

Scheduled dates:

Duration:

Venue:

Cost: R4000.00

INTRODUCTION

The SADC - RTGS Payments training course offers an in-depth insight into the specialised world of cross—border payments which facilitate crucial financial market activities and large, time-critical commercial transactions. Developed by industry experts in this field, it explores the many dimensions that impact this discipline, including the technology, clearing, settlement, liquidity and risk management, legal and regulatory aspects.

THE COURSE

- Describes the context of SADC regionalization, SADC- RTGS platform, benefits of using the system and cross border payments
- Describes the technical infrastructure that supports the high value payments and settlement environment
- Provides an insight into the activities that take place in important financial markets prior to settlement
- Explains key concepts
- Describes the mechanics of high value payments with associated messaging flows and accounting processes
- Describes the Payment Processing and Settlement Operations
- Identifies risks to which payment and settlement systems are exposed and explains how these can be mitigated
- Describes the standards used
- Describes the Scheme rules developed for High value Payments

- Outlines the major elements of the regulatory environment within the cross-border space
- Describes the SADC-RTGS Web and functionality
- Outlines key initiatives that are currently in progress and developments that are likely to shape the future direction of cross border payments.
